Mercedes-Benz
Trucks you can trust

Whether on the road, in a depot or on breaks, limited to 400 units, the Actros L Edition 3 special model combines the best of its successful predecessor versions with new luxurious comfort and design features, including access to extensive and customised service offerings from Mercedes-Benz Trucks.

The Actros L Edition 3 – a vehicle with an exclusive character for an extraordinary driving experience for passionate drivers. Further information on the equipment scope and features is available here:

www.mercedes-benz-trucks.com

EXTERIOR

Paintwork.

A striking vehicle front in white aluminium metallic which extends up over the trim grille featuring stainless-steel trim parts to the new sun visor makes the Actros L Edition 3, together with the Mercedes star in dark chrome, shine in luxurious style from every angle.

Livery.

Thanks to the freely selectable vehicle colour and front as well as side cab livery with colours fading into each other, each Actros L Edition 3 impresses with its individual design.

Side skirts.

Trim parts, like the gills with high-quality Granex surface, as well as the exclusive stainless-steel hub caps prove once again, that the Actros L Edition 3 is perfectly designed down to the last detail.

Sun visor.

The sun visor painted in white aluminium metallic with integrated LED bars as auxiliary headlights and striking "Edition 3" lettering ensures a lasting impression at any time of day or night.

Technology.

Whether it's high-end power with the 15.6-litre OM 473 engine or further reduced consumption with the third generation OM471 engine – thanks to improved gearshift performance with PowerShift Advanced in all available drivetrains, the Actros L Edition 3 offers all drivers impressive performance and driving pleasure.

Rear.

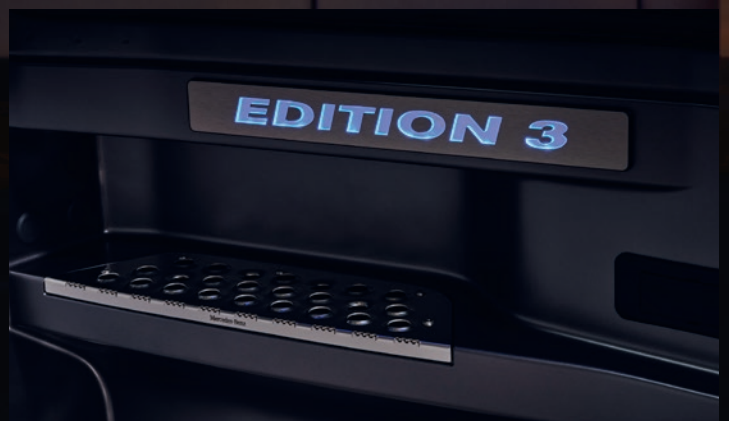

The frame cover, which has been extended up to the end cross member, not only offers an attractive appearance, but also impresses with increased functionality and safety when hitching. The striking "Actros" lettering in dark chrome on the rear cab wall completes the all-round exclusive look of the Edition 3.

INTERIOR

Entry badge.

The fact that the Actros L Edition 3 is not an ordinary truck becomes apparent as soon as the driver enters the cab. The exclusive "Edition 3" entry badge lights up with fading colours and clearly demonstrates that this is where the premium class begins.

Design.

With an instrument panel in the finest almond-beige nappa leather, a leather steering wheel combined with other leather applications on the door handle and the armrests of the leather seat, the Actros L Edition 3 meets the highest quality standards.

Carbon-look interior parts, additional ambient lighting in the roof hatch and many other special applications once again underline the premium claim of the Actros L Edition 3.

SoloStar concept.

The spacious SoloStar seating area with high-quality leather cover in light almond beige makes the space seem larger, lends the interior lounge character and offers drivers comfort at the highest level, even away from the road.

Comfort bunk.

The Actros L Edition 3 also ensures optimum relaxation after work is done. Thanks to the CabLock door lock, a comfortable bunk set and mattress toppers for the upper 900 mm extra-wide bunk, nothing stands in the way of restful sleep.

DIGITAL SERVICE SOLUTIONS

TruckLive.

TruckLive gives Actros L users free access to the digital service solutions of Mercedes-Benz Trucks. Various connectivity services simplify work processes. They can be used with existing platforms such as My TruckPoint.

Maintenance management ensures optimum vehicle availability, while Live Traffic provides support for the navigation system with real-time traffic data for optimum route planning. Further components are already in the pipeline.
